SCCA Southern Indiana Region Monthly Newsletter February 2021 Volume 68 Number 2

## **February RE Report**

Sometimes I talk about the months of December through April as our Southern Indiana Region's "downtime." I need to correct this. We have all kinds of stuff going on during this period. While we do not have championship rally or autocross points events during this time, it is certainly not a quiet time. Many of our members are working on adjustments to their cars hoping they can improve on last season's performance.

Aside from the individual wrench-turning there is a lot of work going on to prepare for our 2021 season. A draft calendar is our usual starting point. We work to avoid holidays and scheduling too many championship points events in a short period of time. Three or four weekends of competition in a row may suit some but we know that our members have other interests and responsibilities, so we try to include open weekends between our events. Working from the draft, we submit a proposal to the authorities at the

Mid-American Air Center (MAAC) in Lawrenceville, IL for our autocross schedule and usage plan. These dates must be set in place months in advance to arrange for events' insurance approvals. After we receive the MAAC's schedule approval the plan is submitted to the FAA. The FAA approval is not a sure thing. They take activities on secure sites very seriously. The MAAC and FAA expect users of the airport property to not only pay for the usage, but to also respect the property. Our annual concrete repair work is more than an autocross supporting activity. Bob Sonntag does a great job of explaining how along with our usage fees our investment in concrete and repair man-hours benefits the MAAC. We need the MAAC, and these Patch Party efforts are critical. Once these autocross dates are confirmed we go forward with requesting SCCA sanctions and insurance for these dates. Our calendar is tweaked as needed and then released for publication. SIR informational flyers and schedule cards are then printed.

We have early autocross-related activities beginning with our Saturday, February 27<sup>th</sup> Patch Party Preparatory Visit at the Lawrenceville-Vincennes Airport, Lawrenceville, IL. This is typically a board activity, but all are welcome to attend. Areas of the autocross site that are to be repaired or expanded will be marked this day. If you'd like to have input on the areas of the site that need to be repaired, please join us. Please check our calendar for all the Patch Party Cut, Dig, and Fill dates and e-mail me if you plan to attend or have questions. (re@sirscca.org).

## Unfortunately, the Snow Buster Autocross, for Sunday, March 7th, 2021 at Roberts Park in Evansville is CANCELLED!!!

## **Gabe Fehribach Racing**

The new car is nearly complete, with only a new set of Hoosier tires and an Aim Technologies barrel camera yet to arrive. Gabe spent Friday, January 22<sup>nd</sup> at Alliance Autosport getting a weight check of himself as well as tweaking the fit of his safety equipment and pedals with his engineer Al Hostettler. While there Friday, the newly painted wing elements and shock cover arrived, so they aren't in the photo because they aren't mounted yet.

Gabe hits the track on Friday, February 5<sup>th</sup> for testing and practice at the Circuit of the Americas racetrack outside Austin, Texas. The two Hoosier Tire Super Tour races that weekend promise to be hectic but exciting with 42 cars registered as of January 26<sup>th</sup> in the fast, big-bore open-wheel race group. In all, more than 200 cars will be run in seven different race groups.

As a bonus, the SIR decal can be seen in the photo where it will be affixed to the car. And, yes, that Camaro GT-2/TA-2 can be rented if anyone wants to have a go! Dean

The Patch Party Preparatory visit is coming up on Saturday, February 27<sup>th</sup>. The Prep visit is to map out the areas of the autocross course that need repairs. The group will meet at the site at 10 am, weather permitting, and walk all the areas of the site marking the concrete with spray paint and recording the marked spots on a course layout. If you'd like to see what goes on and why the decisions are made regarding what gets fixed, join us that morning. Send a note to MacKenzi at re@sirscca.org stating your intentions. Although it's not a labor-intensive event it will give you the chance to be around your autocrossing friends and perhaps have some input as to what is repaired. The day usually goes like this; meet at 10:00 am, exchange greetings and discuss how good or bad the weather is, start walking the course paying particular attention to areas that can be fixed that will allow us to run a different pattern or enhance a current area to allow for a different route. Spray paint around the areas to be repaired and mark them on the layout. When the whole area has been surveyed, we pack up and head for home. The head surveyor will finalize the map and make plans for the repair days most likely presenting the map of areas to be fixed at the March membership meeting. Join us if you can. Paul

## SPORTS CAR CLUB OF AMERICA

## SCCA: A club with many interests

Many faceted in its endeavors, the Sports Car Club of America (SCCA) might best be described as a service organization. It serves over 50,000 members throughout the United States by sanctioning and administering a variety of automotive related activities through more than 115 independently chartered regions. No other single motor sports organization in the world conducts more events than the SCCA. These events range from amateur and professional road racing to road rallys, autocrosses, rally crosses, hill climbs and auto shows. The SCCA is an ever-growing organization for the automotive enthusiast. Because the SCCA is member oriented, the club stresses participation on a broad basis. Regardless of your experience or background, if you are an automotive enthusiast there is a place for you in the SCCA. The avenues available range from amateur or professional road race driver to weekend rally or autocross driver to race worker or official. To successfully sanction and conduct a comprehensive autocross/rally/road racing program many experts in timing and scoring, communications, safety inspection, medical, flagging, course/race control and other skills are needed. Schools are held to train the drivers and workers and various degrees of licenses are awarded based on knowledge, ability, and experience.
