SCCA Southern Indiana Region Monthly Newsletter June 2021 Volume 68 Number 6

## June RE Report

I am so proud to be a member of the Southern Indiana Region of the Sports Car Club of America! We have so much going on and tremendous membership support of the SIR activities. Both our rally and autocross programs are off to great starts! The potential success of these programs is set up by the off-season planning, hard work, and communications efforts of our member volunteers. Our actual success comes because of SIR members' and potential members' participation in our events. I must add that I'm not talking about just showing up. We're all competitors and finishing well is important to us all. It's the sharing and mutual support of the other competitors that brings the many of us back and encourages the weekend members to join our organization.

The month of May offered rally and autocross opportunities for the Southern Indiana Region. On May 23, 2021, with rally marshals of Bob Sonntag and Terry Davis put on a fun rally. We're seeing a healthy mix of about 50 / 50 established members and weekend members participate in our rallies. We're seeing many of the same people come back for these events and we're seeing them

turn in competitive scores. If you haven't tried an SIR rally, you've missed a fantastic opportunity to drive with a focus on speed discipline while trying to decipher the Rally Master's route instructions. As always, I encourage everyone to try it. If you don't have driver or navigator lined up, don't worry. Send me a message and we'll work to pair you up!

We had amazing time at our "Test n' Tune" and "Where's Your Line Now?" autocross events. Thank Dave Lehrschall for being our event marshal for both. We had a good turnout for both. This was our first autocross weekend of the season and our first opportunity to use the repaired surface. The course was fast and fun to start our season. Congrats are in order for Paul Dornburg who won our first points autocross event of 2021.

The Ladies-only, SCCA Women on Track autocross and our second points autocross are rapidly approaching. I am the event marshal and have designed an interesting course for the June 12th and 13th events. Both events promise to use some of the expanded Patch Party improved surfaces. We'll have ladies only competing on Saturday and perhaps a little practice time for those SIR members working the event in support. Sunday's course will be changed so there are no unfair advantages.

I want to remind everyone that it's time to start preparing for the 2021 Solo Nationals to be held Labor Day week. I am sure Paul Dornburg will start putting together group information so that we can setup our SIR area. Please let us know if you are interested.

I must say the biggest challenge in writing these Pit Stop articles is keeping them brief while trying to highlight our past and future events as well as lightly covering our SCCA and Board of Directors (BoD) information. We do get into the latest SCCA info and discuss SIR opportunities in our BoD and membership meetings. Luckily, we also have Ernie Roales donating his time to work on our BoD as Secretary. His meeting notes are always clear and detailed. I encourage you to read his meeting minutes to keep up with our organization's activities and opportunities.

Along with attending our meetings and following our minutes, I encourage you to contact your Southern Indiana Region Board of Directors. This group is working on many topics that you may want to become directly involved in or contribute your thoughts. Please contact any of us to find out what we're working on or to provide your input into the club's direction.

Please check our website at [www.sirscca.org](http://www.sirscca.org) and follow us on Facebook to catch our current Southern Indiana Region activities. You are always welcome to join us for our board and membership meetings. Our next Board meeting will be June 1<sup>st</sup> by Zoom. Our next membership meeting will be held at Smitty's Italian Steakhouse in Evansville or Zoom on Tuesday, June 8<sup>th</sup>. We'll gather around 6:30 and then start the meeting at about 7:00 PM (Central).

We tried to make the Southern Indiana Region's second points rally of the season, "Bits and Pieces", uncomplicated and rewarding for those who would pay strict attention to the CAST and route instructions. We included the name of the road you should be on within every four or five route instructions. There were nine checkpoints which defined the eight scored legs of the rally. Five teams participated in the drive through northern Vanderburgh County and southern Gibson County. Three of the teams were relatively new to the rally competition, but all found success to some degree on many of the rally legs. The rally was setup and run with the Richta GPS Rally App. The TA (time allowance) feature was used heavily in a couple of instances to offset unintentional side-trips.

Software apps made this our most enjoyable rally yet from a Rally Master's perspective. Setup of the checkpoints and rally leg time input has become much more straight forward. Tracking the position of participants as they "crawled" across our checkpoint-indicated map was interesting and helpful when we received requests from teams asking for help getting back on course. Google Map allowed us to create a draft route with street level views of intersections before we drove the route, saving us of time and effort. Our "checkpoint workers" were in cars competing instead of sitting by the road or racing from checkpoint location to location. Leg performance and rally scoring feedback was immediate.

The weather held up nicely until the very end. It was good day, and we think everyone had a good time. We did. Suellyn and Dave Lehrschall

Suellyn and I just finished another Southern Indiana Region rally event. This one, CASTastrophic Times, was put together by Terry Davis and Bob Sonntag. It was very well done. The course that is. Not our rally performance. The course took us on nice, winding northern Kentucky country roads. There was no trickery in the route instructions and the emphasis was maintaining CAST while working through each of the 100-mile rally's 8 legs.

Suellyn and I finished last in A-class with a score of 312, but rather than jump to the end of the story or make excuses. I have to tell you that this rally experience started days ago for Suellyn and me. This year I have decided to prepare and run in A-class. Notice I said that I had decided to run in A-class. Yes, I violated what I normally believe to be the second most important rule in rally. That is that husband and wife teams should be on the same wavelength as far as competitiveness goes. (Just like in Euchre or shooting the rapids in a canoe, both should be focused on the same level to remain a happy team). To get around this, I setup my GPS odometer / CAST app and monitor so that I could zero and watch my CAST while driving. I also hooked up my Android tablet to display upcoming opps and road names on the map. I hung a second, I-Phone to display our rally results and to enter Time Allowances if needed. They have sophisticated apps that combine most of this for your navigator to manage, if he or she is interested in doing so. Anyway, I set this up and used one of my past rallies to check the equipment and technique. The devices did not work well together in sharing the external GPS device's signals. Some dropped out. Some froze. I worked through this and was ready for today's event.

Fast-forward to today. During the event, my vehicle insisted upon linking to the Android device through Carplay and wiped out my connection to my GPS device. While driving and trying to recover the map, we missed seeing a 6<sup>th</sup> leg turn we later picked out the old-fashioned way. We drove way out of our way. We got back on course, but our Time Allowance entry was about 2 minutes less than we needed. We scored half our points on that error. A little earlier we had a CAST value miscommunication which gave us a 36. I misjudged the traffic wait and congestion on the last leg and we scored a 55 there.

I have some technical issues to work out, but I think we're close. We made 3 errors today. I believe most of us make mistakes during a rally and that the key to success is clearly understanding these mistakes and making appropriate adjustments. Our wrong turn was a 12 ½ minute mistake and I applied a 10 ½ minute Time Allowance. The 3 errors we made today accounted for 234 of the 312 points we received. The remaining 78 points could have been our finishing score, today. Who knows? With a little more practice setting and running to the CAST, we might run under 60.

We had a great day today. Thank you, Terry, and Bob, for a really good rally.

Suellyn and Dave Lehrsall

### Bowler Day at the Strip

15 SIR members helped at the Bowler Day at the Strip autocross that was held at the Terre Haute, Indiana airport on May 14<sup>th</sup> and 15<sup>th</sup>. The course was a tight one because the airport didn't give us a whole lot of room to work with compared with what was available. Friday's quick times were in the low 24 second range while Saturday's quickest times were in the mid-20 seconds. 35 Pro-Touring cars took times over the 3 days in 3 classes, 1987 and Older, 1988 and newer, and Pickup trucks.

Things went smoothly Friday as we were graced with very comfortable temperatures and a nice breeze. After lunch, provided by the Bowler cooks, there was a bean-bag toss. Drivers ran the course slowing in 2 areas to toss a bean bag into a tire. A "miss" was a 3 second penalty and each hit cone added 2 seconds to the run. It was entertaining watching the technique used by the tosser.

Saturday was going well until a 1963 Corvette caught fire on course. Quick acting SIR members doused the flames and saved a priceless car. The car later returned to competition with an altered fuel tank vent, the cause of the earlier fire.

Many thanks go out to these SIR members for volunteering their time and energy. Working both days were, Harold and Karen Davis who handled the insurance waivers, Ernie Roales was the Solo Safety Steward, Danny Woodard was the starter, Bob Sonntag and Paul Dornburg handled timing and scoring, Richard Grav, Kurt Krodel, Drew Gerth, and Larry Pearson worked the course, and Carolyn Dornburg handed out time slips. Working the course Friday were Jeff Jackson and Terry Davis. Don Kelley and Steve Backer worked the course Saturday.

Notes: The times reflect any 2 second penalty per pylon; the pylon count is shown in the penalty column.

In instances where there were no times for the second set of runs because of DNF/DNS runs, times were created by adding 2 non-indexed seconds to the competitor's slowest run time.

Where possible, DNF runs show the raw time.

Would the 2021 autocross season start differently than the past 3 seasons? Nope. Paul Dornburg was at the top of the list after the day was done followed by Jon Schwartz, Jr. Crowe, Don Kelley, and Brent Sturgeon. Dornburg was fastest at every run starting with a 41.01 and ending with a 39.26, improving on every run. In 2018 it was Dornburg, Don Kelley, Richard Grav, Jeff Metz, and Barry Beaman. The 2019 order was Dornburg, Jon Schwartz, Jr. Crowe, John McCarthy, and Amanda McCarthy. Last year it was Dornburg, Brandon Porambo, Jr. Crowe, Barry Beaman, and Jeff Jackson.

Some noted the large number of people (22) that scored autocross points in the 900 range and maybe it was the largest number of competitors in the 900 range ever. A quick check of recent events showed that indeed it was. There were 20 in the last event of 2020 and another with 20 in 2018. There was only 1 competitor that received the minimum 750 points something that hasn't happened in a long time.

Next up is the Ladies Autocross/Points Autocross #2 doubleheader on June 12<sup>th</sup> and 13<sup>th</sup>. MacKenzi Crowe will be the course designer for her "Twist and Shout" autocross courses.

On June 27<sup>th</sup> Ernie Roales will put on Points Autocross #3, Quick & Dirty Ver. 6.27. What fiendish course design will Ernie come up with this year?

R = Rookie

Gabe and his #9 FE2 lined up on the "False Grid" for Race 1 with Team Manager Suren Tchobanian standing by.

SIR member Gabe Fehribach recently competed in the Great Lakes Race of Champions Major the weekend of May 21-23 at Mid-Ohio Sports Car Course north of Columbus, OH. Most of you will remember that Gabe had a horrific crash at this course last July (see the August 2020 issue of Pit Stop). While Gabe was looking forward to the event, his mother Courtney was understandably quite nervous. The event went very well, seeing Gabe start 15th of 26 overall (5th in the FE2 class) and finishing 13th (4th in class) in the 16-lap Saturday race; he was only 57 seconds adrift of the overall leader with his wicked fast prototype. The 35-minute, 21-lap Sunday race went just as well with identical start and finish positions. Not long after the start, a rather large spacer used for the throttle came loose in the cockpit and wedged itself under his braking foot, annoying him for the duration of the Sunday race but he persevered. Gabe is definitely becoming more comfortable in the car saying after the weekend that it was so much more fun running mid-pack and lapping slower cars rather than being one of the cars at the tail *being* lapped.

On test-and-tune Friday, however, the weekend looked like it wasn't going to go well. In the first 20-minute test session, Gabe reported a bad vibration, some sort of fluid hitting him in the visor, and a misaligned steering wheel. The fluid turned out to be brake fluid leaking from the bleeder valve O-ring on the right-front brake assembly. A change of wheels and tires took care of the vibration, too, but the steering wheel alignment needed to wait for the lunch break due to the time needed to adjust it. His 2nd practice session saw his on-board starter fail on the grid, so he would miss that session. The skilled Alliance Autosport team was able to replace the starter with a spare in under 20 minutes, in time for session #3 before lunch. The 4 afternoon sessions were spent trying to find speed. After that many sessions in the 85-degree heat, the cars and drivers were all quite tired at the end of the day.

This weekend also saw Gabe finish off the last of the requirements to compete in the Run-offs at Indianapolis this Fall. Before that happens, he is going to be focused on his next event in mid-June: the final Hoosier Tire Super Tour race of the year at Watkins Glen International.

## SPORTS CAR CLUB OF AMERICA

### SCCA: A club with many interests

Many faceted in its endeavors, the Sports Car Club of America (SCCA) might best be described as a service organization. It serves over 50,000 members throughout the United States by sanctioning and administering a variety of automotive related activities through more than 115 independently chartered regions. No other single motor sports organization in the world conducts more events than the SCCA. These events range from amateur and professional road racing to road rallies, autocrosses, rally crosses, hill climbs and auto shows. The SCCA is an ever-growing organization for the automotive enthusiast. Because the SCCA is member oriented, the club stresses participation on a broad basis. Regardless of your experience or background, if you are an automotive enthusiast there is a place for you in the SCCA. The avenues available range from amateur or professional road race driver to weekend rally or autocross driver to race worker or official. To successfully sanction and conduct a comprehensive autocross/rally/road racing program many experts in timing and scoring, communications, safety inspection, medical, flagging, course/race control and other skills are needed. Schools are held to train the drivers and workers and various degrees of licenses are awarded based on knowledge, ability, and experience.
