March RE Report

Ladies and Gentlemen start your engines. It is that time of year where we all clean up the sports cars, hot rods, and grocery getters because the season is fast approaching. I couldn't attend our go kart extravaganza, but from what I hear the Davis's were dominant. I hope we can squeeze more of those events in during the off seasons in years to come.

We have our first points counting competition coming up in just over a week.

Rally #1 Scrambled legs presented by team Sontag/Davis will kick us off this year. This rally starts at the Hardees on North Boeke Rd in Evansville. Spoiler alert there are rumors circling that I will have a different partner at this event than I have had in years. We hope to start the season off right and defend the title.

Come one come all (please) to the MAAC in the upcoming weeks for our annual patch party. We will serve plenty of shoveling, carrying rocks, sweeping, kneeling and for dessert.... Jackhammering. These workdays will earn you those precious bonus runs throughout the season. Trust me, I have won some events and even a championship with these runs, so they are extremely valuable.

We also have our board meetings, membership meetings and possibly a ladies event coming up. Watch your emails for full details. I hope everyone is warming up with the smell of flowers, rain and smoking tires in the air. See you at one of our events soon!!!

Jr.

TLDR

- Solo Safety Steward Training is available online. Follow this link: [Solo Safety Steward Training](#) and sign up. We always need Solo Safety Stewards. At some autocrosses last year, we only had 2 available SSS. We need more! If only 1 SSS attends an event, they cannot compete!
- Solo Course Designer Training is now available. In 2026 you will need to complete this course in order to design an autocross course. More information here: [SCCA Course Design](#)
- On our website, sirscca.org, clicking on the red [Calendar](#) icon at the top of the page will take you to a page that has all our competition events listed with an icon that will take you to the registration site, MotorSportReg.com.
- If you are ordering anything from the Tire Rack, go to this [page](#) and click on the Tire Rack link. We get a commission on every sale that comes from our page when you start with the link on that page. It's free money to the club!
- SPS is a company in St. Louis that supports the autocross community. Check out their lines of products [here](#). Just don't buy tires from them because they will get the commission not us.
- There's an excellent article about filters on YouTube. You can find it [here](#).
- Check out this page of autocross stats. [Autocrossdigits.com](#) It also has the 2026 PAX numbers for you to weep over.
- Here are many [pictures](#) of road races at the Lawrenceville Airport courtesy of Jay Bonvouloir.

RIP - We've lost 2 club members in the last month.

Dr. Jim Butler, joined the SCCA in July of 1973. He was active in the SCCA road racing safety program receiving the George Snively Award in 2011 for outstanding contributions to the safety of motorsports. Here he is pictured receiving the award from then SCCA President Jeff Dahnert. His obituary is [here](#).

Mimsie Coen 1935-2026, words by grandson Jay Bonvouloir

I knew this day would inevitably come. We sadly had to say goodbye to my grandmother, Mimsie, who passed away peacefully Feb 28. She was such an amazing lady, who would do absolutely anything for you. She was my biggest supporter, and I owe everything to her. I will always cherish the memories of the many road trips in her Corvette we took to go watch races, the museums visited, movies watched and dinners out, along with our long conversations. We could literally talk or joke about anything. And she loved hearing about and seeing my photography endeavors. I hate that dementia really took her away from us long beforehand and even though she may not have remembered me in the end, she always talked with a smile anyway. We are relieved she is no longer suffering.

2026 Entry Fees & Weekend Memberships, AGAIN! Make sure you understand.

by Bob Sonntag

For those that read meeting minutes or attended the January or February membership meeting this will be old news and for the rest, it's news.

After much board discussion over at least two SIR BoD meetings, the 2026 entry fees have been raised slightly and the autocross entry fee expanded.

Starting with the simplest case first, the Weekend Membership fee has been raised from \$20 to \$25. The SCCA has raised the amount regions are invoiced for each Weekend Membership by \$5. SIR passing that along to Weekend Memberships at autocross events and for those drivers in our rally events using Weekend Memberships.

The region will continue to pay for needed Weekend Memberships for navigators in our rally events.

A free one-time-only Trial Membership is available to those that would like to experience an SCCA event from within a vehicle on course. For autocross events, that's riding along as a passenger at one event. In rally events, that's the opportunity to be the navigator one time. (The driver must always be either an Annual/Lifetime member or a Weekend Member.) After using the one-time-only Trial Membership, to be a passenger again at an autocross, a Weekend (or Annual/Lifetime) Membership is required. Likewise, to be a navigator again requires a Weekend (or Annual/Lifetime) Membership.

The per car rally entry fee has been raised from \$37 to \$40. SIR will continue offering the "pay to play" \$5 discount to those having run the previous rally in the year.

The autocross entry fee has also been raised from \$37 to \$40. New is the option for out-of-region entrants to pay a larger entry fee (an addition \$20, \$60 total entry fee) to have the same number of runs as SIR members with two bonus runs. SIR region members CANNOT pay the larger entry fee to have the extra runs. The ONLY way for SIR members to get those extra "bonus" runs is to work the corresponding patch party days.

As way of explanation, the autocross entry fees are structured to maintain our ability to muster a workforce for patching efforts. As the board explored alternatives, too often we noticed that any difference in the entry fee for the additional runs would be exceptionally tempting those we expect to help with our patching effort. Basically, those that autocross regularly with SIR. An additional \$50/event could have too many opting to buy the extra runs and not earn them. If we lose too much workforce, the work expected of the remaining workforce increases. That decreases the motivation to be in the workforce, and bang, boom, we no longer have the workforce needed to maintain autocross site.

The patch party days are open to all. Anyone working the appropriate patch party days earns the associated bonus run. SIR member or not. SCCA member or not.

We continue to offer a \$10 discount to students. We have discontinued the \$5 discount for multiple entries in the same household.

SIR members without FREE SCCA Annual Waivers using the event SpeedWaiver will be charged \$5 for each use of the event SpeedWaiver. That's a hint! Get your SCCA Annual Waiver.

These next screenshots are what you will see when you are entering an SIR autocross event.

SPORTS CAR CLUB OF AMERICA

SCCA: A club with many interests

Many faceted in its endeavors, the Sports Car Club of America (SCCA) might best be described as a service organization. It serves over 50,000 members throughout the United States by sanctioning and administering a variety of automotive related activities through more than 115 independently chartered regions. No other single motor sports organization in the world conducts more events than the SCCA. These events range from amateur and professional road racing to road rallies, autocrosses, rally crosses, hill climbs and auto shows. The SCCA is an ever-growing organization for automotive enthusiasts. Because the SCCA is member oriented, the club stresses participation on a broad basis. Regardless of your experience or background, if you are an automotive enthusiast there is a place for you in the SCCA. The avenues available range from amateur or professional road race driver to weekend rally or autocross driver to race worker or official. In order to successfully sanction and conduct a comprehensive autocross/rally/road racing program many experts in timing and scoring, communications, safety inspection, medical, flagging, course/race control and other skills are needed. Schools are held to train drivers and workers and various degrees of licenses are awarded based on knowledge, ability, and experience.
