July RE Report

I hope you have A/C where you are because it's HOT. It's not only hot outside but our competitions are getting closer and closer all the time. We all just seem to keep pushing each other to get better and better. Paul took his second straight win at points autocross number 2. Joel Wasser came back with a vengeance and took the 2nd spot. I am stuck in third for the second time in a row. I am not sure how we are going to catch Paul this year but there are a bunch of folks trying very hard to do it. Can Paul reclaim his throne after a two-year absence? Can any of us commoners keep the king down? Tune in.....this sounds very old school Batman series.

Cannonball!!! I don't mean the one in the pool or a steel ball. Jim Cannon just put on his second rally yesterday and it was outstanding. It was very easy to follow and the roads were great. Last year a couple of the signs were a little wonky and folks got really turned around, but this year a few pointers in the drivers meeting and our only challenge was figuring out the acceleration of the minivan. Harold and Karen Davis have really got the screaming-orange prius figured out as they came in best score of the event with 25. Kenzi and I had the second-best score overall and a win in B class with a 74. I look forward to another trip around Petersburg next season.

We have two autocrosses before my next letter is due. July 12th and July 26th and then the Lehrschaall rally #4 on August 2nd. We still have membership meetings to attend on the second Tuesday at Smitty's in Evansville.

Everyone stay safe in this heat and we will see ya soon!!

Cannonbaaalll Again!!!!

Jim Cannon was setting up round three for SIR rallyists this year. We expected to recognize some of the roads. At our event, round two, Jim had told us we had used some of “his” roads. As it turned out, it was an advantage. A couple of times on the event we had the “what does that really mean” conversation and the smart person in our car was able to make some educated guesses that kept us on course.

Keeping on course was clearly the secret sauce for the day. Our competition in class A had some struggles that we were lucky enough to avoid and our Rally Rabbit 2.0 set up worked well enough to give us a win in class A. A good day for an old couple in a Prius, out for a Sunday drive.

Thanks Jim, we had a fun day.

Great Lakes Division Solo Series Events 1 & 2 Report

Roving reporter Ernie Roales

First off, the area at Memorial Coliseum is amazingly large, spanning 3 parking lots. The pavement is fairly grippy for asphalt. The Fort Wayne group put on well-run events. The only drawback is having to pay to enter the grounds each day.

Saturday's Course was fast. It seemed I was full throttle 90% of the time. The challenge was not to over brake. I showed improvement all day.

Sunday's course was a reverse of Saturday's, with tweaks to start and finish. The course did not flow as well for me Sunday and with the rain, improving times was hard. Going to

Divisional events is well worth the

time. New layouts, new friends, and If you are lucky, Paul will buy dinner Friday night. Think about going to the Hoosier Shootout in August at Grissom.

Roving reporter #2, Paul Dornburg

This was my first visit to Ft Wayne and my first GLSS event. As Ernie said, the lot at the Memorial Coliseum is huge. In the dry conditions Saturday, I was able to put down the 7th quickest run just behind Joel Wasser. In PAX results I was 5th and Joel was 2nd!

Sunday started dry but a storm rolled in and soaked the course. Joel got a dry run early in the day and was 2nd quickest on the day and #1 in PAX. I was 7th and 6th respectively in raw time and PAX time with all my runs being on the wet. FTD both days was Kevin Keys in a CAMS Corvette. He only made 1 run Sunday and set FTD!

Roving reporter #3, Joel Wasser

Things in life that are difficult to describe to someone in a single sentence tend to not be mentioned as often to people in passing. I would place the thing called autocross in that category. Tell me when you've successfully described driving around cones in a parking lot to someone without it coming off like a story that ends with, 'I guess you just had to be there...'.

In the quest to improve at the skill that is driving around random cones, I have started driving to additional events. Only practicing a thing for six minutes per month was not going to allow a rate of

progression I am willing to accept. This plan is taking me to more places, requires more investment, which I hope leads to more improvement.

Paul Dornburg, Ernie Roales, and I, attended a two-day autocross event in Fort Wayne, Indiana. The event was facilitated by the Fort Wayne Region SCCA in the parking lot of the Allen County War Museum. The site itself is asphalt with some good change in elevation. The lot is normally used to support a variety of events so there is plenty of debris getting picked up by your tires during runs.

Day one provided good weather. Six runs in total were split between a morning and afternoon session. The course had a good mix of slalom, switchback, sweeper, and long straight. We showed that Southern Indiana Region drivers compete pretty well in the Fort Wayne Region. At the end of the day, prizes and raffle items for charity were handed out. Many stayed around to show support. A good portion of us met up at a local Mexican restaurant to share stories and have some dinner. Afterwards, it was back to the hotel for some much-needed beauty rest.

Day two brought the variable that everyone loves, weather. The schedule was changed to a morning and afternoon session, in the hopes of the main rain cell would hit during the lunch period. Morning runs got one dry run, before the rain. It let up part way through the heat and eventually started to dry. During lunch, there was enough rain that you could kayak through part of the paddock. Afternoon sessions had to deal with consistent rain to start which then changed to an intermittent mix. After all runs were completed, the sun finally appeared. Again, trophies and raffle prizes for the day were announced. A good amount stayed over again, just showing how communal the region is.

Traveling to a different site and region is a commitment. The Fort Wayne Region does a good job of welcoming everyone. At the end of the day, we are all part of an odd cult that if you know, you know. I encourage everyone to consider attending an event elsewhere. There will be some newness, some figuring stuff out, some meeting of new people, some added investment, which at the end of the day is rewarding.

Jeff Jackson trophies at the 2026 Lake Placid Porsche Parade.

Here is Jeff with his autocross trophy from Porsche Parade on June 24th in Lake Placid NY. He finished 2nd, losing to a new generation GT3 by half a second in a class full of Cayman GT4s GT4RSs, and Boxster Spyders and Spyder RSs. He only got 2 dry runs before the rain ruined the last 2 runs.

(Ed note: The Sports Car Club of Vermont got to use this site for the first time the weekend after the Parade autocross.)

CLOKKR results are presented in 2 forms. The first form is the "Live Event" results that look like the results on the left. "Live Event" results are just that, results from the last/current live event. The page will change as soon as the next event is started. The QR code stays the same but the results change

As long as we are using the CLOKKR timing system the QR code for live results will be this.

If you've visited the series results web page of CLOKKR you've seen this display to the left. And maybe you've wondered why AX1 and AX3 have no information. The columns are empty because AX1 and AX3 were fun events and we don't want the results to figure into the points reporting. If you click on the black AX1 or AX3 icon you will be taken to the results for those events.

As long as we are using the CLOKKR timing system the QR code for current series results will be this.

Sports Car Club of America®

ANNUAL WAIVERS

ADULTS

WHO CAN HAVE ONE?

All SCCA Members over the Age of Majority*. They are not required for adults to participate in events.

WHY GET ONE?

Members with Annual Waivers do NOT have to sign SCCA Waivers at events – you're covered every time.

HOW TO GET ONE

Scan the code to the left with your smart phone and follow the prompts. Be ready to submit a valid selfie!

MINORS

WHO CAN HAVE ONE?

Those looking to participate who are under the Age of Majority in the state the event is being held.

**Age of Majority is 18 years, except AL & NE at 19 and MS at 21.*

DOES EVERY MINOR NEED AN ANNUAL MINOR WAIVER?

If a minor is only spectating at an event, no Annual Minor Waiver is required! But any minor competing, participating on track or volunteering/working in 'hot' areas MUST have one.

DO THE PARENTS NEED TO SIGN?

Yes! All legal guardians/parents must complete the Parental Consent. There is a checkbox to use if you are a Sole Custodian.

HOW TO GET ONE

Step 1: Parents each scan "Parents" QR code, log in or create an account and complete the "Annual Waiver Minor Parental Consent" separately

Step 2: Minor scans the "Minors" QR code, logs into his or her account and completes the "Annual Waiver Minor"

SPORTS CAR CLUB OF AMERICA

SCCA: A club with many interests

Many faceted in its endeavors, the Sports Car Club of America (SCCA) might best be described as a service organization. It serves over 50,000 members throughout the United States by sanctioning and administering a variety of automotive related activities through more than 115 independently chartered regions. No other single motor sports organization in the world conducts more events than the SCCA. These events range from amateur and professional road racing to road rallies, autocrosses, rally crosses, hill climbs and auto shows. The SCCA is an ever-growing organization for automotive enthusiasts. Because the SCCA is member oriented, the club stresses participation on a broad basis. Regardless of your experience or background, if you are an automotive enthusiast there is a place for you in the SCCA. The avenues available range from amateur or professional road race driver to weekend rally or autocross driver to race worker or official. In order to successfully sanction and conduct a comprehensive autocross/rally/road racing program many experts in timing and scoring, communications, safety inspection, medical, flagging, course/race control and other skills are needed. Schools are held to train drivers and workers and various degrees of licenses are awarded based on knowledge, ability, and experience.
