The pairings started with last 2 cars and proceeded down the "Starting Position" list. As a driver was eliminated I moved their name to the "Finishing Position" list. I didn't have enough time to properly record the details of what was going on because I was trying to work in the 6 drivers who were driving the same car and also provide fair handicapping. I hope we'll have a good turnout at the next club meeting where drivers can fill in the details of their driving experience.
